

Natural Resources Management

BHE provides a wide range of natural resources management solutions, tailored to fit requirements of each client's project. Whether you are planning a renewable energy project, developing real estate, or repairing a pipeline, we have the experience to keep your project in compliance with environmental regulations, including the National Environmental Policy Act (NEPA), the Clean Water Act (CWA), state wildlife protection protocols, or local floodplain ordinances. BHE has in-depth experience with Endangered Species Act (ESA) compliance, and long-standing relationships with the relevant agencies.

BHE staff understands the importance of schedule and budget, and will help you stay on track from initial planning through project completion and monitoring. BHE will determine what environmental issues may affect your critical path, and can develop approaches with regulatory agencies to deliver a successful project.

SERVICES INCLUDE:

- + NEPA Process Management and Document Preparation
- + Wetland Surveys, Identification, and Delineation
- + Clean Water Act Permitting
- + Habitat Evaluation, Surveys and Impact Assessment
- + Endangered Species Act Biological Assessments and Habitat Conservation Plans
- + Ecological Risk Assessment
- + Impact Mitigation and Monitoring, Adaptive Management Planning
- + Natural Resource Management Plans
- + Habitat Restoration Plans and Mitigation Banking
