

Company Overview

BHE Environmental, Inc. provides environmental, civil and industrial engineering, science, and management services to industrial and government clients nationwide. We offer a full-range of environmental consulting and remediation services that set the standard for quality and responsibility in the industry.

At BHE, we go beyond conventional processes to define environmental challenges and their solutions with our clients' needs in mind. By applying innovative diagnostic tools and leading edge technologies, our scientists are uniquely equipped to identify and support project objectives that avoid risk to human health, the natural and built environments, and our customer's mission-critical business goals.

For over 23 years, BHE Environmental has been delivering on our promise to bring customers the best in industry knowledge, management expertise, and technical consulting practices. As BHE has grown, we have developed new technological applications, including Ultimap[®], that raise the standard for data management and analysis by integrating high-level information management systems with our consulting expertise.
